Name2: _____

Name3: _____

Discussion Question:

Go to color.adobe.com to choose a color palette for your own scheme for the body and thumbnail-title background colors.

Color Palette Chosen (Providing color codes only here)

#8656F5 134 86 245 96

#EF56F5 239 86 245 96

#BB55F6 187 85 246 96

#5659F5 86 89 245 96

#F556A1 245 86 161 96

Write down the options of color values here and probably the reason why you choose them.

I picked out these color values because I like the color purple and I think it provides a good balance of striking colors and more calming, easy on the eye tones, so that the palette has the ability to highlight important things and good base hues.

Then use DevTools to try them, choose two as your final options

Picking

#8656F5 134 86 245 96

Paired with

#BB55F6 187 85 246 96

and put them into the code in styles.css file.
